GitHub: <https://github.com/Acampbell8610/>

Portfolio: <https://acampbell8610.github.io/Professional-Portfolio/>

Full-stack developer with a background of security technologies for school systems. Currently earning a certificate in full stack development from University of Central Florida's Coding Bootcamp, with newly developed skills in JavaScript, CSS, React.js, OOP, SQL, Express.js, Handlebars.js and responsive web design. I have a passion for solving problems and creating organized code for future development. With each project, my aim is to become a more proficient developer. I'm excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences.

Technical Skills

Frontend: HTML5, CSS, JQuery, Javascript, Bootstrap, AJAX, Tailwind, Webpack, React, PWA, Webpack

Backend: MySQL, Express, Node, Handlebars, Sequelize, Jest, Inquirer, Moongo.DB, Mongoose, Service Worker

Projects

Cocktail Party | <https://github.com/Acampbell8610/cocktailParty> |

<https://cocktail-party-jp-ac.herokuapp.com/>

Back-End

- This app is a place for everyone to share drink ideas or reviews.
- Cocktail Party accomplishes the use of MVC as well as authorization for your own profile. I was responsible for the back end of this project.
- Tools/Languages: Mysql, Express, Node.js, Handlebars, Sequelize, Javascript, CSS, Bcrypt, dotenv

Muma | <https://github.com/Acampbell8610/MuMa> | <https://acampbell8610.github.io/MuMa/>

Front-End

- This app uses an API to search for an Artist with their top 5 songs and albums.
- Muma accomplishes the use of a server side API. I was responsible for pulling in the API.
- Tools/Languages: Html, CSS, Javascript, Materialize

Weather Forecast | <https://github.com/Acampbell8610/alex-campbell-weather-forecast> |

<https://acampbell8610.github.io/alex-campbell-weather-forecast/>

Front-End

- This app uses an API to search for the 5 day weather forecast in the city you search for.
- Weather Forecast accomplishes the use of a server side API.
- Tools/Languages: HTML, CSS , Javascript, Bootstrap, Moment.js

Work Experience

Hoover City Schools

July 2017 - Present

Security Tech

Hoover, AL

- Helped create and implement a lockdown system for the whole school district with the push of a button.
- Implemented a camera system that connects each school's cameras together on one server.
- Upgraded the door access control units.
- Maintained over 1600 cameras over 22 facilities.
- Taught SRO officers how to access and implement camera systems and lockdown systems.
